

# Things To Look For In A Credit Repair Company

- **Some companies will not deal with you at all unless you pay**

We have a free credit report analysis. We can look at your reports and see if we can help you before you signup. If you already have existing credit reports (within a couple months old), you can email them or fax them to us for our analysis. If you do not have them, you can get them from <http://www.creditchecktotal.com>. They also have a credit monitoring alerts that will let you know of any changes to your reports as well.

- **Some companies do not do much work**

Not only do we dispute items with the three credit reporting agencies (which not all even do that); we also send disputes directly to your creditors, collection agencies, and even courthouses! We do 100% full disputing process, not just a simple bureau dispute. We do not charge any extra for our direct dispute approach!

- **Some companies do not clearly state their guarantee**

Our guarantee is listed clearly on our website and listed in our contracts as well.

- **Vision**

At the core of **ABC Center** is a moral and ethical commitment to do the right thing for our clients and the right thing for our industry. Proof of our integrity can be seen in the high ratings we receive from our customers, and the amount of referrals that they send to us.

- **Some companies keep you in the dark**

We give our clients 24/7 online access to their account information. This includes information about billing and a detailed breakdown for each account on their report. We want our clients to know exactly what is going on and not be kept in the dark.

Trying to buy a home with a 620 is not an easy thing to do... I called **ABC Center**. Their knowledge and expertise and reasonable cost sold me within minutes. They got the charge-offs removed and raised my score to a 710 within 7 months. I am now sitting in the living room of my dream home. Words cannot express my gratitude, but I'll sure try. Thank you from the bottom of my heart.—LOUISE B.
